

Tenant Advocate – Susan Hunter

Susan Hunter has been active in tenant advocacy since 2010. Currently she is working with both Housing is a Human Right, a division of the AIDS Healthcare Foundation; and as a case-worker for the Los Angeles Tenants Union – Hollywood Local. Her organizing helps link the current difficulties tenants face to policy, and how the rules we shape hurt or help our working-class families. Moving forward into 2021, she hopes to help re-shape the narrative that we must build housing into making sure people are actually housed.
